

## Dairytainer - 4 High front-loader

The 4-High Front-load Dairytainer is a robust roll-container used in a variety of industries and is proficiently used for logistics and merchandising.

Our Dairytainer has the ability to wheel goods through the entire supply chain from the filling machine to the store – the customer is the only person to touch the products!

Front-load Dairytainers excel in a semi and fully automated environment and exist in different heights and widths.
